Don't be irritated by cold draughts

THE BEST INTERNAL RETRO FITTING DRAUGHT CUTTING LETTER PLATE THERE IS. ASK YOURSELF...

Does your letter box leak cold air and what do you pay for this?

- 1. Does your letter box rattle, bang, bite or snap?
- 2. Does your post get jammed half way through?
- 3. Is the size of your letter box limited to what can be delivered through the rear?

Then Ecoflap will help you sort these. NO brushes, NO springs to trap post, damage mail (or fingers) and automatically opens to those A4 plus thick deliveries

Ecoflap will NOT blow open and let the elements into your hall, and by the way...is your thermostat to your heating system in the hall? Then there will be no false messages to pump up your heating for the whole house saving £s £s £s. Join the Ecoflap Club! £23.99 for a very well engineered product specially to help save you money.

Guide to the Fitting Measurements

Bolts protruding from outside flap, including the nuts, must not be wider than 28.75 cms to be able to fit INSIDE Ecoflap recess—otherwise the bolts will need to be recessed. The hole can be larger so long as it is within the flange.
